NAME: ChutimaTiprak

University Name: Prince OfSongkla University

Project Name: Managing Booths in Trade Show and Event Never Been This Easy

Purpose (Effect) of Project Goal :

- To develop web applications to manage Floor Plan of booking booths.
- To help manage booth reservations or to make more efficient reservations. And reduce the duplication of reservations.
- To allow users to book booths. The floor plan can be checked and the booth's details are displayed at the exhibition.
- To meet the needs of users to be real and useful to users

Number of Project Members: 2

My Position in Project : Programmer

Project Overview:

Managing Booths in Trade Show and Event Never Been This Easy to solve the problem of management and make students more efficient management, such as the booth booking can not be booked immediately. Know the number of booths booked. Time to tell the interested person. Interested people will be confident and trust that this event people buy a real booth.
